

The Perfect Building

- ⓐ Is appropriately sized for the occupants
- ⓐ Takes full advantage of the sun
- ⓐ Uses no combustion
- ⓐ Minimizes the use of petroleum based materials
- ⓐ Minimizes heating & cooling loads (insulation)
- ⓐ Is designed around mechanical & plumbing systems
- ⓐ Uses simple technology & little automation
- ⓐ Balances aesthetics with energy performance
- ⓐ Has healthy indoor air quality
- ⓐ Is durable & requires little maintenance
